SERVICES

A strong team of software professionals empowers the application development capability at iAD, DPS Tech Management System Software Solutions. The applications developed range from Web-stores, online service retail-ing to enterprise information systems. Our competencies in .Net technologies, ASP, XML, PHP and C/ C++ are demonstrated in various network-based applications. SQL/ Oracle database engines supportmost of these applications.

Custom Application Development/ Maintenance

It is a well-known fact that some of the ready-made, packaged applications have failed to meet therequirements of the customers because of their unique needs and differing business practices and processes. In addition, prohibitive cost of implementing a packaged application and the maintenance thereafter becomes an unwelcome perspective.

We have experienced I.T. Consultants for Project analysis, formulation and concept planning, right upto project management and installation. We develop customized Software that is completely based on user's requirement with GUI (graphical user-friendly interface) on any of the mentioned platform / Languages.

MIS and ERP Solutions & Support

We offer customized low cost solutions to industries based on open standards, contemporary technologies and maintenance support. While incorporating the best of business practices, we do take special care of the customer requirements.

ERP Solutions include the development of software in a distributed model, with some phases of the project being conducted onsite and others being conducted offshore. Each phase is uniquely definedand executed. After unit, and system testing the product is then sent to the client for acceptance testing. We have satisfied customers find the solutions user-friendly, flexible, and comprehensive

SERVICES

Reengineering

Reengineering Business Reengineering is on the agenda of many companies in different industries. Striving to improve business processes to better meet customer requirements, Business Reengineering initiatives aim at revolutionizing key performance criteria, such as cost, delivery, and quality. As this is a top management issue we ensure that the structure, the work-place contents, the information technology in use and the culture of the organization will successfully assimilate the improved processes. To tackle with hard and soft barriers and make the reengineering process a success we make sure that following steps are taken in each project:

- √ Diagnosing resistance to change
- √ Managing individual change
- √ Coaching tools and techniques for helping employees navigate the change process
- √ Implement work teams and case managers extensively throughout the organization.
- √ We believe creative thinking cannot be replaced with software tools and stay away from over-sophistication
- √ Build learning, renewal, and short feedback loops into business processes.

Web Solutions

DPS Tech Management System provides web solutions & services to help customer reach to a wider customer base. The web is a new and different medium for communication and requires a different viewpoint and skill set to use it in the most effective way. You need web consulting to get more return on your investment your web site. We can help you get the most effective solution through:

- Website Development
- Web Multimedia
- Web Promotion
- Search Engine Optimization
- Intranet Development
- Web Hosting
- E-commerce
- Mobile application

SERVICES

Website Development

Websites can enhance awareness of your brand, leading to more sales. Build relationships with customers, vendors, and shareholders through your online identity get more traffic from the search engines Get more traffic from the search engines, fast loading web pages with excellent navigation and designing, communicate more effectively. Either you are looking for Dynamic site or a static sites your solution we can help you acquire both. We offer web sites on flash, asp, php which are tailormade to target your customers and make your presence live on web.

Web Multimedia

Add video on your web site or have a complete flash web site and see your popularity ranking high.

Web Promotion

We can promote your site to acquire more traffic, more enquiries, more leads, and more value. WebPromotion is a three phase process and we are your companion to see you through all the phases and that too very well. We get your site listed at the most popular Internet directories because they can send you substantial amounts of traffic and affect you're ranking in various search engines. Emailmarketing is a great way to promote your electronic Shop to buyers including those who are interested in your shop but have not purchased items from you in the past.

Search Engine Optimization

Your website doesn't mean anything to anyone unless it can be found by your customers. Phase two in Web Promotion is optimizing your site so it appears high in the search engines and uses them to bring even more people to your pages. Our Web development and Promotion methodology, caters to the best of breed processes which helps in a successful on-time and above expected delivery.

Phase three ensures that your site attracts even more traffic for which our experts go over techniques

like reciprocal links, email signatures, newsletter articles and more.

SERVICES

Application Maintenance & Support

We have years of experience in executing maintenance projects. Our team of experienced consultants has been successfully managing maintenance projects of local clients as well as offshore ones.

The quality of product deployment, training and support has everything to do with customer success and satisfaction. We offer annual maintenance plans which are tailor-made as per the client's requirement. If required we depute technical team which works at the client site for the system execution or support as per requirement.

Our clientele includes Government organizations as well. We ensure maximum return on investment to the customer as we provide complete offsite telephone support in the form of consultations, assistance and advice on the use and maintenance of the Licensed Software. Our experts' providing technical assistance and advice for problem diagnosis and resolution, have gained us admirer world over.

We also offer on-site service calls to Customer's facility. In such cases, our consulting charges are subject to service hour charge, plus reasonable travel and out-of-pocket expenses.

Turnkey Solutions

DPS Tech Management System Software Solutions takes up projects under this service for a fixed price and takes all responsibility of execution and project management. These solutions are ideally suited for projects that are fairly well specified and require well-defined interfacing with the client. We have developed a number of products and MIS applications for its clients in this service. **DPS Tech Management System** Software Solution's mature software development processes, combined with excellent infrastructure have significantly increased the "on-time and on budget" delivery of software in the offshore mode. We use a highly effective IM-PACT Methodology for offshore and distributed software development.
